STUDENT VOICES (What students say about their SALT Center Tutors)

“I'm very impressed by how effective [her] tutoring was. She has been very willing to go above and beyond to ensure that I have truly mastered the content necessary for success.”

“She is honestly the best math tutor I've ever had. She knows when I don't fully understand a concept and knows exactly how to break it down for me. Without her help, I truly don't know how I would be able to get through math 100.”

“She had a good understanding of where I come from, made me comfortable to open up, and understood how I think. She was like a second learning specialist.”

“The notes we took for me to take home were very useful and helped me see the problems visually.”
